

# Accessibility Statement – Alaska Automation Solutions

**Effective Date:** January 27, 2026

## Our Commitment to Accessibility

Alaska Automation Solutions is committed to ensuring digital accessibility for all users, including individuals with disabilities. We strive to make our website, digital products, and services accessible, usable, and inclusive for everyone.

## Compliance with ADA and Section 508

We aim to comply with applicable accessibility requirements under the Americans with Disabilities Act (ADA) and Section 508 of the Rehabilitation Act. These laws require that electronic and information technology be accessible to people with disabilities. While ADA and Section 508 requirements are interpreted through evolving standards, we make reasonable efforts to meet these obligations.

## Accessibility Standards

Our accessibility efforts are guided by the Web Content Accessibility Guidelines (WCAG) 2.1, Level AA, which are widely recognized as the benchmark for digital accessibility and are referenced by ADA and Section 508 guidance.

## Website Platform (Wix)

Our website is built and hosted using the Wix.com platform. Wix provides technical infrastructure, templates, and accessibility-related features that support compliance with accessibility standards. Alaska Automation Solutions is responsible for the accessibility of the content we publish on the platform.

## Accessibility Features

Where possible, our website includes features such as clear navigation, readable text with sufficient contrast, keyboard accessibility, descriptive headings and links, and responsive layouts that adapt to different devices and assistive technologies.

## Ongoing Efforts

Accessibility is an ongoing process. We regularly review our website and content, utilize available Wix accessibility tools, and make updates to improve usability for individuals using assistive technologies.

## Known Limitations

Some accessibility limitations may exist due to third-party integrations, embedded content, or platform constraints. We actively work to address these issues where feasible and within reasonable technical and financial means.

## **Feedback and Accommodation Requests**

If you experience difficulty accessing any part of our website or require an accommodation, please contact us. We will make reasonable efforts to provide information or services in an accessible alternative format.

## **Contact Information**
